March 4, 2025

Dear Rock Port R-II Staff and Families,

On January 24, 2025, we notified you to make you aware that PowerSchool, our student information system, had experienced a cybersecurity incident in late December. In investigating this, we found that students and staff were affected and we were advised that PowerSchool would provide remediation in the form of identity protection but we did not know when that was going to start for our employees and students in our system.

Recently, employees and parents have reported that they are being contacted via email from PowerSchool in regards to the services provided for remediation. It is our understanding that they are rolling this out slowly and those that have been affected will be notified over the next several weeks. If you are being contacted by PowerSchool your personal information was involved. Participation in their offer is voluntary and has a deadline of May 30, 2025. They have options for individuals that are over the age of 18 and those that are under the age of 18.

Thank you for your patience and understanding.

Sincerely,

Rock Port R-II Schools
